1. Background and Scope of Work.

South African Tourism Board (SA Tourism) was established by section 2 of the Tourism Act No 72 of 1993 and continues to exist in terms of section 9 of the new Tourism Act No 3 of 2014. South African Tourism is a schedule 3 A Public Entity in terms of schedule 3 of the Public Finance Management Act 1 of 1999.

The mandate of SA Tourism, in terms of the Tourism Act, is to provide for the development and promotion of sustainable tourism for the benefit of the Republic, its residents and its visitors. It is common cause that tourism is a key strategic industry in terms of The National Tourism Sector Strategy as it supports government's objectives of alleviating the triple challenges of unemployment, poverty and inequality.

Section 217 of the Constitution of the Republic of South Africa, 1996, prescribes that goods and services must be contracted through a system that is fair, equitable, transparent, competitive and cost-effective and confers a constitutional right on every potential supplier to offer goods and services to the public sector when needed.

Having regard for the aforementioned SA Tourism is hereby extending an invitation to your firm, as part of a competitive bidding process, to submit a cost proposal for the production and distribution of the grading plaques.

Member Base: 5462 members

The supplier will be required to fulfil the following processes and operational Production and functions regarding the complete cycle of plaques.

a. Production of TGCSA plaques- according to TGCSA current plaque specifications:

- SAT plaques Standard - Direct print onto Perspex
- Laser cut 2x5mm Perspex (Dimensions of Plaque 220x 320mm)
- 2x Perspex board to make up 1 unit
- Frosted vinyl applied to back of the board
- 4x holes drilled (1 in each corner) Diameters: Screw 6mm including spacer 25mm x 15mm.
- 4x rust free screws and spacers for each unit - Screw size 50mm- Screws must be rust free to avoid deterioration in outdoor weather.
- Packaging of Plaque: Must be presentable and well packaged to be locally or nationally delivered. TGCSA to provide instruction sheet that will be emailed to the establishment upon delivery of plaque.

REQUEST FOR QUOTATION

- b. Distribution of courier service delivery of plaques nationally across South Africa
- c. Weekly Delivery reports matched against the plaque list provided covering:
 - 1. Total plaques delivered successfully
 - 2. Geographical breakdown of plaque delivery
 - 3. Wrong address reporting within 12 Hours back to TGCSA for address validation
- d. Produce and deliver new plaques across all TGCSA categories to establishments within the 6 months SLA period countrywide. Plaque production and deliveries will be on a month-to-month basis.
- e. Upon being shortlisted the service provider will be required to produce samples of the following:
 - a) The sample will be required to pass:
 - Exact CI (Corporate Identity) guideline application

Plaque assembly components dismantled (Screws must be rust free/galvanized screws with washers to prevent rusting on coastal areas) Packaging of Plaque: Must be presentable and well packaged) Key achievements that SAT want to achieve by appointing a service provider for this assignment:

The successful service provider will be required to enter into an SLA with SAT.

To ensure that the project is managed by a qualified service provider that will enable TGCSA to have a professional service provider that will adhere to a 30-day turnaround time of production and delivery.

Delivery tracking reports shall be integrated into the TQIT system for easy reference. Tracking number monitoring system is essential for all stakeholders i.e.: Establishment owner, assessor and TGCSA quality protection team

The supplier will be required to provide detailed manual reports/ updates via TQIT system to SAT:

- Reasons for late delayed deliveries
- Geographical breakdown of deliveries
- Tracking and monitoring system for assessors and establishments
- Weekly reports of total packages delivered as per compared against provided list
- Plaque design will remain the same (Perspex plaque printing with star allocation and membership number) Alteration to the metal component needs to be considered perhaps galvanized rods to prevent rust for coastal establishments.

Failure to adhere to the 30 days' turnaround time will require accountability, monetary penalties for the supplier. This is essential to the protection of brand of TGCSA to ensure all member receive their plaque within the promised SLA. Failure to provide this service within SLA will directly affect the ability for the TGCSA to support establishments that are graded with proof of their grading. None delivery of plaques can result in increased TGCSA cancellations as no plaque delivery fails to acknowledge the star allocation as per category grading assigned to the establishment. This in the greater scheme of things can decrease international visits and consumer confidence decreases with the uncertainty of the grade of the establishment.
